

Viola "Unhappy Taxpayer" Davis
Candidate for 4th District Commissioner

\$254 Million Dollars – Who'll get the money? DeKalb County or City of Dunwoody & Perimeter CID

What are you not being told about the City of Dunwoody & Perimeter CID?

- We want to make it absolutely clear that Dunwoody have the right to become a city under the constitution of the United States; however, they do not have the right to **disenfranchise over 94% of the voters of DeKalb County** while causing the property owners taxes to go up and their land value to go down.
- The elected officials have neglected to tell the taxpayers and voters of DeKalb County about the fact that once Dunwoody becomes a city and take Perimeter CID, Dunwoody/Perimeter CID will walk away with over **\$254 million dollars in federal and state funding (grants)** acquired with the help of the entire county of DeKalb.
- The entire state of Georgia voted on the bill that would create the City of Dunwoody which only affects DeKalb County thus removing local rule. However, the bill that would give the City of Dunwoody **the right to buy county land for as little as \$5,000.00** was tabled because this bill would affect the entire state of Georgia.

Task Force to Elect Viola Davis

Livable Center Initiative Study		\$23,000.00+\$15,000.00 (PCID) +\$22,500.00 (Brookwood Consulting Fee)			\$95,000.00 Next Phase TBD
TOTAL				\$13,700,000.00	\$254,352,500.00

View the **\$254 million dollars** - Ask yourself how a private nonprofit leave with our money?
Did you know that Perimeter CID claim that they pay an extra millage to qualify for these fund and the extra millage (4 mills) amount to approximately 2.9 million dollars? Did you know that Perimeter CID paid over \$2 million dollars for private police service? Where did the matching fund come from to qualify for the federal and state funding? I say again - entire county of DeKalb. Time to tell the truth. Time for our "blue county" to sue this "red state" over a "green issue" called money.
